### FRANNY'S BITS.

Once again I missed the printer's deadline last month so hopefully we have a slightly thicker edition this month.

The summer handicap season came to a close with Hannah and Keith taking the spoils. The course round the Harrow Way has been quite slippery this summer due to the odd "light shower" but fortunately most of us have managed to stay on our feet. The dates for the Winter series round the Foxdown course will appear shortly.

As some people at the club appear to have some difficulty in contacting me, here are my phone numbers. 01256892738 (home) or 07748064884. If possible, please do not phone before 1pm as I work shifts.

**Thanks to JT for the following reports.**

**RACE FOR HOPE 5 miles at WINCHESTER**

Only a small group of us turned out for this charity race which was well organized with plenty of marshals, mile markers etc over an undulating course around the Springvale area and back along the Andover road to finish in the recreation fields by the sports center.

Eric was seeking to improve his fitness after his idle holiday and was well beaten by Steve who is showing good form despite a lack of consistent training. JT again struggled with his dodgy calf muscle that let him down on the return section of the route.

**LAMBOURN CARNIVAL 5miles.**

**8<sup>th</sup> AUGUST**

For the second year running we entered this low-key race on the roads and tracks around this Berkshire town. Although it was very hot it was nothing compared to last year when temperatures were in the 90's.

Eric had another battle with Steve McNair only to lose out by over a minute and failing to recapture some of the form lost whilst vegetating in Greece. JT suffered, yet again, with a re-occurrence of his calf problem and struggled home vowing not to race again until this had properly cleared.

**SUMMER HANDICAP.**

**12<sup>th</sup> AUGUST.**

The final race of the summer season resulted in an easy win for relative newcomer Mark. Bliss continued his comeback in second place and was second fastest on the night whilst Keith Vallis took third with the fastest time overall. Cath had a great run to take third fastest on the night. The time league was won by Keith following a very consistent summer. Cath's storming run helped her to second in the league while Mike took third despite his injury problems.

Despite recording her worst result of the summer, Hannah was the popular winner of the handicap title by 3 points ahead of Keith. This time Cath had to settle for third spot. Many thanks to all who helped with the time keeping during some rather damp evenings.

Some venues (XC league) and dates are still to be confirmed.

### Consistency Lge. Contd.

The Overton 5 and our home XC fixture have not been included as some club members help with marshalling etc. The current tables are on the notice board.

If all dates etc. are confirmed we should only have one weekend with a double fixture.

The rules are the same as in previous seasons with the first runner home in each event scoring 20 points, second runner 19 points etc. Club Championship events are indicated above and score DOUBLE points i.e.: 40, 38, 36 etc. Should any event be cancelled I will endeavor to find a suitable replacement where possible. PLEASE support these fixtures, a big turn out is a great advertisement for the club and attracts new members.

### **OVERTON 5 miles. 4th SEPTEMBER from Franny**

A huge field, with almost 400 starters for the main race, there was also a large turnout also for the one lap event. The very hot conditions took it's toll on many runners with a fare few doing a 'Paula' and failing to finish. The race was won by Basingstoke's Phillip Tulba in a time narrowly outside 25 minutes. He had a comfortable margin over Carl Morris of Wells City and Winchester's Phil Killingley. First woman home was Shona Crombie-Hicks of Bourton Road Runners with Southampton's Kaye Harwood second with Cath taking a superb third place that was good enough to also win the vets title. First home from the club was Ian Ford who wound back the clock with a brilliant effort in 15<sup>th</sup> place. This was good enough for second in his age group and 3<sup>rd</sup> Vet overall. Josh was fading badly towards the end and just held off Mike by a narrow margin. Great to see you competing again Mike. Keith Vallis had the wrong vest on but has to get a mention as he gave Mark Simcox a good hiding. Skinny Darren Cuff is back with a vengeance but after Africa may have found it a bit chilly. Cath was in next with Martin coming home close behind, Andy's training has been a little up and down of late but seemed reasonably happy with his run.

Next came the pack and at the drink stop six runners were only yards apart. I had a good second lap to lead home the chasing pack though Dave Titcomb never gave up the chase and was too close for comfort at the end. He had the consolation of beating Eric again but one gets the feeling that Eric will soon be out for revenge. Mark suffered a little on the second lap but will be breathing down our necks once he sorts out his pace judgment. Steve died big time at the drink station and only kept going to get another glass for his collection.

Liz had a solid run and was just clear of ex club member Linda Younghusband as they finished 2<sup>nd</sup> and 3<sup>rd</sup> respectively in their age group. Moira was close behind to take 2<sup>nd</sup> spot in her age group closely followed by Elaine who had a good run in the blistering conditions. Rod Sayers was, I believe, running his first open race in club colours and showed the benefit of the training he has done throughout the summer months.

**HIGHCLERE 10km.****5<sup>th</sup> SEPTEMBER.**

A larger field but the quality was lower than the previous day. The earlier start time meant that it was cooler and the organizers once more tweaked the course to put “more off road” into this multi-terrain event. Paul Wheeler led home the club interest (never thought I would type that sentence out again) with a very respectable top 20 finish. Cath had run the day before so can feel very happy with her 30<sup>th</sup> place which was good enough to finish fourth woman and first Vet by over 5 minutes. I made a late decision to try the weekend double and surprised myself by having a better run than the day before.

Our Belgian guests got amongst the prizes with Edmund and Marie-Paul both taking the Vet 50 titles. Andy Hartley took on the role of spectator as Emma completed the course and comfortably beat the 60-minute barrier.

**Southern Road Relays Aldershot 26 September from Geoff**

Our U17 Boys team was made up from two Team Kennet boys who regularly turn out for us in the Hampshire League, Martin Hooley from Andover and Josh Bliss. After a dithering start Josh ran a superb first leg finishing in 6th position, and was followed by Robert Ridley, Mark Vardy, and Martin Hooley, who brought the team home in 16th place.
